THE ALUMNI ALCOVE

THE attention of the Alumni is called to the Alumni Alcove in the Seminary Library. This Alcove was established some years ago and is intended to contain the publications of all those who have been students in Princeton Seminary, and thus be a visible and enduring monument of the large literary activity and influence of the sons of Princeton, who have done so much toward moulding and directing the Christian thought of this and other lands. It is believed that the Alumni will at once recognize the desirability of such a collection and the consequent desirability of making it as complete as possible. To this end they are earnestly requested to send to the Library their printed works, whether books, pamphlets or sermons. The receipt of these will be immediately and gratefully acknowledged.

ABSTRACT OF THE REPORT

The Report for the year ending March 31, 1932, contains notices of sixty-three alumni and former students of the Seminary. Ten of these should have been in former Reports, but the fact of their death did not reach the Editor in time.

The oldest of these sixty-three was the Rev. Oliver Hemstreet of the class of 1865, who died at the age of ninety years and ten months. Ten others had passed their eightieth year, and nineteen their seventieth year. The average age of the sixty-three was sixty-eight years. The youngest died at the age of twenty-four years and two months. The average confessional age was fifteen years.
